# Unsearchable Riches Comprehensive Index
# Volumes 1-112 4Q

Topical Index Volumes 1-95.....2
Scripture Reference Index Volumes 1-95.....173
Topical Index Volumes 96-112 4Q.....204
Scripture Reference Index Volumes 96-112 4Q.....262

May these indexes greatly facilitate the finding of the spiritual treasures expounded in the *Unsearchable Riches* magazines.

In the topical and reference index, the volume numbers are separated by a semicolon. Volume numbers and page numbers are separated by a period with the volume numbers preceding the period and the page numbers following. Page numbers are distinguished by a comma. Always check the next column or page for topics or sections which are continued.

## Topical Index

The Topical Index is arranged in alphabetical order by article titles and major topics and sub-topics. The adjectives "A," "An," and "The," as a rule, are not included as part of the alphabetical order. The main topics are placed flush with the left margin of the column. Usually, the sub-topics relate to the first word of the main entry. Occasionally, a main entry, consisting of more than one word, is underlined, indicating that the sub-topic/s are associated to the underlined words, rather than to the first word only. Below is an explanation of symbols found in the text:

1) "*" An asterisk in front of a volume or page number, indicates that the entry is the *title* of an article.
2) ":" (colon), in most cases, separates the topic entry from the volume-numbers and page-numbers.
   e.g., Aaron, Anointing of: 39.104
3) "<>" means "contrasted with".
   e.g., New Birth <> New Creation
4) "~" represents the main topic word in any sub-topic entry.
   e.g., *Eonian*, Chosen Before Times: 77.172
   Definitive ~ Passages: 79.175
5) "+" represents a first-level, sub-topic word within any of the first-level's sub-topics.
6) "Æ" represents a second-level, sub-topic word within any of the second-level's sub-topics.

## Scripture Reference Index

The Scripture Reference Index follows the traditional order of the books of the Bible. Chapter numbers and verses are highlighted in **bold**. Lines beginning a new chapter are placed flush with the left margin of the column. Any additional lines are indented one tab space until a new chapter is defined. A hyphen and a 'space bar' following a chapter number indicates a comment is made about the chapter as a whole, for example, **4-** 88.103. Beginning with Volume 96, a **Ch.** preceding a chapter number indicates a comment is made about the chapter as a whole, for example, **Ch.4** 96.237.

Although this text has been carefully proofread, the reader may find an occasional, erroneous reference. We welcome corrections which may be incorporated into future editions of this work.
